---

Katrina,

Why was Deborah Stanley on your email? Laura was not on your email and she is listed as a potential signator.

See my comments within attached document.

Not sure but seems like the RACER estimations for some of the exotic treatment technologies are very high.....wondering if you should not present them and just screen them out right at the beginning (ITRC matrix probably scores them as below average for cost) with something to the effect of cost would be in the 10's of millions.....

Hebert

Good Day all, does anyone have comments on the FS screening memo supporting the early action ROD? I am hoping that you will be willing to peer review and sign with me. If you do not wish to, please let me know; however, if you have comments please send those.

thanks

**Subject:** 06GG- Wilcox Oil Company - Draft Early Action Proposed Plan for sources

All,

Please find attached, the draft Early Action Proposed Plan to address sources at the Wilcox Oil Company Superfund Site in Bristow, OK. Also, accompanying this Proposed plan is the Technology Screening Memo.

Note: this is an early action taken during the RI. There is no final RI, FS, or risk assessments. For quick reference guidance documents are also attached.

Thank you for taking the time to review.
